
Coding & Reimbursement Guides

(General Reference Document)

Purpose

NOVAMED GLOBAL Coding Guides are designed to support internal teams and external partners involved in healthcare coding, coverage, and reimbursement related to orthopedic and medical device applications. These materials are provided for educational and administrative reference only.

Intended Users

These guides are intended for healthcare providers, clinical administrators, billing and coding professionals, hospital and outpatient staff, as well as distribution partners and internal teams.

Coding & Reimbursement Notes

Coding and reimbursement requirements may vary based on procedure type, clinical documentation, facility setting, and payer policies. The responsibility for accurate coding and claim submission rests solely with the healthcare provider. NOVAMED GLOBAL does not guarantee reimbursement outcomes.

Regulatory Disclaimer

Information is based on publicly available regulations and industry practices at the time of publication and may change without notice. Users are encouraged to verify current requirements with relevant payers and authorities.

Future Updates

Product-specific coding references may be introduced as NOVAMED GLOBAL expands its portfolio and educational programs.
